

Automated Building Controls was established in 1991 with the goal of providing superior service and value for our customers through knowledge, efficiency and dedication. Automated is a full service HVAC/Controls company that specializes in commercial, industrial and institutional facilities. Our services include but are not limited to:

- Complete Automatic Temperature Control service
- Remote Support for BMS and HVAC systems
- Preventive HVAC maintenance contracts
- 24-Hour on call service personnel
- Unit replacements
- Full sheet metal shop
- New and retrofit control installation
- Air balancing services
- Commercial HVAC Start-Ups
- Thermal imaging services
- Indoor air quality services

Our company uses Team Management Systems® (TMS) business software. This software manages every aspect of our business information, from logging service calls and dispatching technicians, to customer equipment information and system repair history. We maintain a fully stocked warehouse at our company headquarters to ensure parts are delivered to the job quickly and efficiently.
